CAN’T WAIT TO LEARN
2017

Research-based, innovative learning opportunities for children affected by conflict.
A SOLUTION: CAN’T WAIT TO LEARN
CAN’T WAIT TO LEARN IS...

- Research informed and evidence generating
- Proven to be effective in pilot and trials
- Designed to scale from day 1
CAN’T WAIT TO LEARN GOAL:
170,000 CHILDREN BY 2020
Why set unrealistic goals? Because you can’t achieve amazing results by setting modest targets. We want amazing results. We want to tackle the impossible.

Achieving 65% of the impossible is better than 100% of the ordinary – Setting impossible goals and achieving part of them sets you on a completely different path than the safe route.
